**Top 5 Investment (In cr) by sector(FY 2022)**

Stamp Registration:

- Revenue Growth:** Total revenue from document registration and e-stamp challan increased by 25% to 213 billion.
- Rural Dominance:** E-stamp challan revenue is mainly from rural Telangana, with growing document registration revenue in these areas.
- Regional Disparities:** Rangareddy, Medachal Malkajgiri, and Hyderabad show significant differences in registration and e-stamp revenue, with Rangareddy leading in both.
- Trend Analysis:** COVID impacted document registration from April 2020. Recovery started in November 2020, interrupted briefly by the second wave in May 2021, and resumed from July 2021.

Transportation:

- Vehicle Sales:** Karimnagar saw a 12% increase in new vehicle sales. Hyderabad recorded the highest sales, nearly doubling from 2021.
- Fuel Type Dynamics:** Fuel-type vehicle sales dropped significantly in 2022 due to COVID. Electric vehicles showed consistent growth.
- Regional Variances:** Nirmal district had the least growth in vehicle sales. Hyderabad dominates vehicle usage, with petrol vehicles leading at 5523k units.

Ts-Ipass:

- Total Investment:** Ts-Ipass secured 99.13K in total investments.
- Quarterly Trends:** The fourth quarter consistently sees higher investments.
- Sector-wise Investment:** Plastic and rubber attracted the most investment, followed by pharmaceutical and real estate.
- Regional Investment Leader:** Rangareddy stands out with the highest investment, reflecting a correlation with increased vehicle sales and stamp revenue.

Data-Driven Policies:

- My suggestion to the government is to formulate policies based on the identified correlations between vehicle sales, stamp revenue, and investments.
- Utilize data-driven insights to inform decision-making and enhance the effectiveness of economic policies.

Promote Strategic Investments:

- I recommend that the government actively encourages investments in sectors exhibiting positive growth trends, particularly in areas such as Plastic and Rubber.
- Focusing on strategic investments can contribute to overall economic development and sustainability.

District-Specific Initiatives:

- It is advisable for the government to tailor initiatives according to district-specific preferences, considering variations in vehicle class distribution and economic activities.
- Implementing region-specific measures can better address the unique needs and priorities of each district.

Monitoring and Adaptation:

- My suggestion to the government is to establish a robust monitoring system for economic indicators.
- Regularly assess the performance of policies and be prepared to adapt them to sustain growth and effectively address emerging challenges.

Public Awareness Campaigns:

- I strongly recommend the initiation of public awareness campaigns to highlight the correlation between government initiatives, investments, and economic development.
- Fostering public understanding and support can enhance the success of policies and promote active participation in economic activities.
